

Before You Pay a Recovery Service — 10 Red Flags

ForgotWalletPassword.com · if any flag applies, stop the conversation

- ☐ They asked you to upload your wallet file, vault, hash line or seed phrase.
- ☐ They promised recovery, a “guarantee” or a “hack” before seeing your file.
- ☐ They want payment upfront before explaining feasibility.
- ☐ No verifiable identity — no name, address or business registration.
- ☐ They contacted you first — DM, email or “we found your case”.
- ☐ They use urgency or fear (“act now”, “before it’s too late”).
- ☐ They claim a backdoor or a way around the encryption.
- ☐ They demand remote access to your computer.
- ☐ They asked for your seed phrase “to check”.
- ☐ No verifiable references, or they refuse to name the tools.

“Reported” is not “guilty”, and a name not on a list is not proof of legitimacy.
